

1089

Dear sir or Madame,

I am a proud mom of three boys living in Norwalk. I am a design director of a home furnishings company. My youngest Nathan has autism. He was a victim of fake therapist Stacy Lore many years ago. Correct and affordable ABA therapy is critical for a child with Autism!!!

I am wholeheartedly in favor of SB 1089 sections 23 – 29. Please pass this bill as soon as possible. It is critical for consumers of ABA services in the state.

I understand that 458 CT residents are certified, and that 19 states already have licensure including NY, MA and RI.

I appreciate your attention on this important bill!!!

Kimberly Hill Graham
